

GENTLE Professional Education on Nuclear Energy

Offers ambitious professionals the stepping-stone to the field of nuclear engineering. This Education Programme is meant for professionals who aspire a successful career in the nuclear energy field, and for executives who want to become the leaders of tomorrow. Among many other things participants will learn to understand the fundamentals of nuclear science and the nuclear fuel cycle. They learn to discuss safety, politics and ethics of nuclear energy and last but not least the soft skills and management tools needed in the field of nuclear engineering.

The first module starts on **June 1st at the Reactor Institute of Delft University** of Technology.
