

# OECD/NEA CFD4NRS-8 workshop

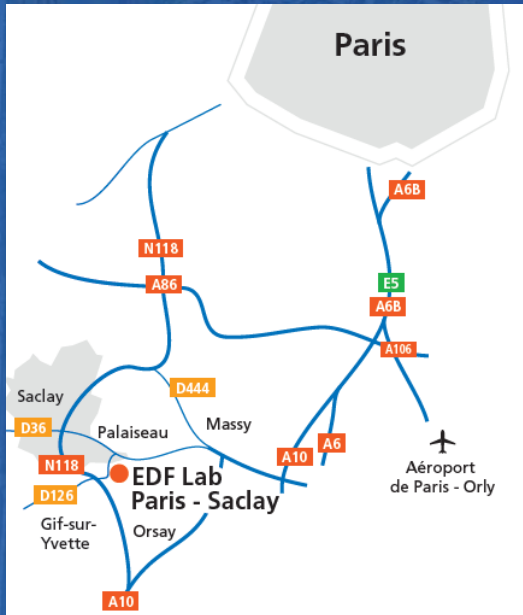

Computational Fluid Dynamics for Nuclear Reactor Safety

25, 26, 27 November 2020

EDF Lab Paris-Saclay

## Contact information

mathieu.guingo@edf.fr  
pierre.ruyer@irsn.fr  
philippe.freydier@edf.fr  
nils.sandberg@oecd-nea.org

## Main themes

Nuclear TH  
Containment flows  
Fluid-structure Interaction  
Thermal fatigue  
Critical Heat Flux  
Pressurized Thermal Shock  
Particle-laden flows  
Verification and Validation  
Uncertainty quantification  
Design basis accident  
Severe accident  
Code coupling  
Benchmarking  
Plant applications

<b>Deadline abstract</b>	<b>31/01/2020</b>
<b>Invitation to submit full article</b>	15/04/2020
<b>Deadline full article</b>	15/06/2020
<b>Decision of the referees</b>	25/08/2020
<b>Finalized article due</b>	15/09/2020
